

Notification – Canterbury

February 2024

Sydney Metro is Australia’s biggest public transport project.

By 2030, Sydney will have a network of four metro lines, 46 stations and 113km of new metro rail.

Sydney Metro is revolutionising how Australia’s biggest city travels, connecting Sydney’s north west, south west and greater west to fast, reliable turn-up-and-go metro services with fully accessible stations.

Passenger services from Chatswood to Sydenham will commence in mid-2024, then onto Bankstown in 2025.

In February, work will continue along the corridor and at Canterbury Station (weather and site conditions permitting). Work will be undertaken during standard construction hours, **Monday to Friday 7am-6pm** and **Saturday 8am-6pm**. You may also notice an increase in plant and materials being removed from our sites as contractors change over along the alignment.

Location	Details of work during standard construction hours (daytime)
Canterbury (along the rail corridor)	<ul style="list-style-type: none"> • Site investigations, surveys and associated activities • De-vegetation and tree clearing around the rail corridor where required • Mobilisation and demobilisation of plant and materials including preparatory activities for upcoming out-of-hours work • Modification work at Church Street footbridge including: <ul style="list-style-type: none"> • Temporary closure of Church Street footbridge and temporary removal of parking along Church Street cul-de-sac • Pedestrian diversions via Church Street, Tincombe Street, Canterbury Road and the public footpath between the rail corridor and the former Canterbury Bowls Club • Work related to security fence installation and combined services routes within the corridor • Parking removal and lane closures to facilitate plant/truck operation, parking and access at various locations along the corridor • Ongoing termination, cabling and testing work at services building • Installation of cables and trackside equipment
Around Canterbury station	<ul style="list-style-type: none"> • Minor civil, mechanical and electrical works • Testing and commissioning activities • Minor defect remediation work • Installation of equipment, cables, cable tray and cabinets in station rooms and buildings
Former Bowling Club	<ul style="list-style-type: none"> • De-vegetation and tree clearing throughout the rail corridor where required • Mobilisation and demobilisation of plant and materials including preparatory activities for upcoming out-of-hours work
Substation site off Hutton Street	<ul style="list-style-type: none"> • Installation of equipment, cables and cable supports as well as mechanical and electrical fitout inside traction substation building • Landscaping including planting and maintenance of new trees and shrubs • Traffic control to facilitate truck movements on Hutton Street, if required • Operation of transformers for testing and commissioning purposes, 24 hours/day • Cabling, mechanical and electrical fit-out and finishing works for padmounts, including testing

**From time to time we may finish work later than 6pm as we complete concrete pours. This will entail finishing off poured concrete using manual and powered floats and may continue until 10pm. This may occur on up to four separate evenings during the month. The noise impacts from this work will be very low.*

Out-of-hours work

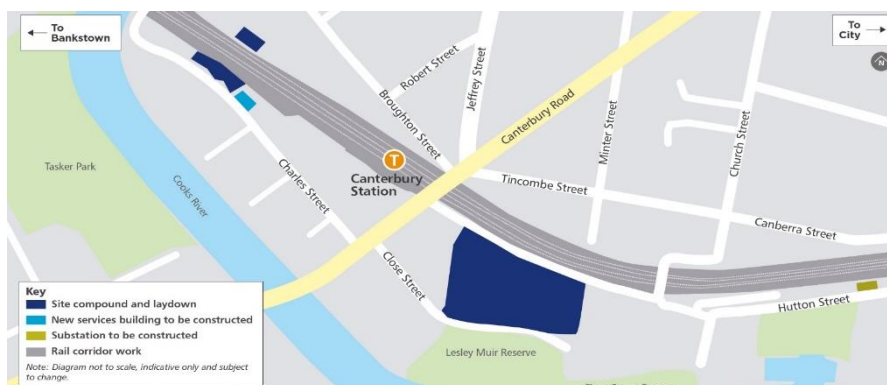

Due to the nature of some activities and for the safety of workers, some work will occur outside standard construction hours, when trains are not running. Some equipment will also be delivered outside standard construction hours in line with Transport for NSW requirements for the movement of oversized vehicles. Properties close to scheduled work will be notified prior to work starting. Planned out-of-hours work is detailed in the table below.

Date / Time	Details of out-of-hours work
<p>Upcoming rail possessions:</p> <p>Saturday 3 February to Sunday 4 February 2024</p> <p>Saturday 17 February to Sunday 18 February 2024</p> <p>(24/7 work)</p>	<ul style="list-style-type: none"> De-vegetation and tree clearing around the rail corridor where required Site investigations, surveys and associated activities Mobilisation and demobilisation of plant and materials including preparatory activities for upcoming out-of-hours work Work related to overhead wiring upgrades Work related to the segregation and security fence installation within the rail corridor Parking removal and lane closures to facilitate plant/truck operation, parking and access at various locations along the corridor Modification work at Church Street footbridge including: <ul style="list-style-type: none"> Temporary closure of Church Street footbridge and temporary removal of parking along Church Street cul-de-sac Pedestrian diversions via Church Street, Tincombe Street, Canterbury Road and the public footpath between the rail corridor and the former Canterbury Bowls Club Installation of brackets and containments Operation of generators for testing and commissioning of padmount transformers, 24 hours/day Testing and commissioning of new communications and signalling systems Installation of equipment, cables, cable tray and cabinets in station rooms and buildings Installation of cables and trackside equipment along the rail corridor
<p>Mid-week between 6pm and 7am (for no more than 3 nights per week)</p>	<ul style="list-style-type: none"> Site investigations, surveys and associated activities Mobilisation and demobilisation of plant and materials including preparatory activities for upcoming out-of-hours work Operation of generators for testing and commissioning of padmount transformers, 24 hours/day Testing and commissioning of new communications and signalling systems

Equipment used for the above work will include heavy machinery (including but not limited to excavators, jack hammers, vacuum trucks, slashers, motorised saws, concrete trucks, elevated work platforms, concrete pumps, cranes, cable pulling equipment, road sweeper, compactors, lighting towers, forklifts, chainsaws, and water carts), and hand and power tools.

Access to buildings and driveways will be maintained at all times. Some of this work may be noisy, however we will take every possible step to minimise noise such as switching off equipment when not in use and using non-tonal reversing beepers.

Properties close to the rail corridor will receive notifications when construction work is scheduled to occur. You can contact us on **1800 171 386** (24-hour community information line). If you have questions about the **substations** please ask for **Grace/Alana** or email LinewideMetro@transport.nsw.gov.au. For all other works please ask for **Julian** or email SouthwestMetro@transport.nsw.gov.au.

Thank you for your cooperation while we complete this essential work.

If you need an interpreter, contact TIS National on **131 450** and ask them to call **1800 171 386**
